

QUANTUM SHIELD LABS

EXECUTIVE BRIEFING GENERATOR

Product Overview & Service Guide

Transform a 15-minute assessment into an 18-page personalized executive briefing

■ **Personalized**

Tailored to YOUR org

■ **Data-Driven**

Industry research backed

■ **Rapid Delivery**

24-48 hour turnaround

One-time investment for board-ready quantum security intelligence

\$497

WHAT YOU RECEIVE

Your Executive Briefing is a comprehensive, personalized assessment of your organization's quantum security posture. Every briefing is custom-generated based on YOUR specific answers, infrastructure, and risk profile—not a generic template with your name inserted.

18-Page Executive Briefing PDF

| Section | Pages | What It Covers |
|---------------------|-------|---|
| Executive Summary | 2-3 | Key findings, risk statistics, priority actions |
| Risk Assessment | 3-4 | HNDL threat analysis, timeline reality, blind spots |
| Technical Standards | 2-3 | NIST FIPS mapping, system vulnerabilities |
| Compliance Analysis | 2-3 | HIPAA gaps, vendor risks, insurance exposure |
| Action Plan | 3-4 | 90-day quick wins, 12-month roadmap, budget |
| Next Steps | 2 | Engagement options, methodology, sources |

Key Features

- **Personalized Risk Scoring:** Based on YOUR employee count, patient records, and infrastructure
- **Healthcare-Specific:** HIPAA compliance mapping integrated throughout every section
- **Actionable Roadmaps:** Timelines and budgets calibrated to YOUR organization size
- **Board-Ready Format:** Professional presentation quality suitable for executive audiences

What Makes This Different: We don't just change the company name—we analyze your specific assessment answers, map your infrastructure to known vulnerabilities, and calibrate all recommendations to your budget constraints and organizational timeline.

HOW IT WORKS

The 4-Step Process

| Step | What Happens | Your Time |
|---------------|---|-------------------|
| 1. Assessment | Complete our 48-question online form | 15-20 minutes |
| 2. Analysis | Your answers analyzed against our research database | None (we work) |
| 3. Generation | Custom briefing created with personalized findings | None (we work) |
| 4. Delivery | Professional PDF emailed directly to you | 24-48 hours total |

What We Ask About

Our 48-question assessment covers six critical areas of your quantum security posture:

| Category | Questions | What We Learn |
|----------------------|-----------|---------------------------------------|
| Organization Profile | 8 | Size, sector, budget constraints |
| Data Sensitivity | 8 | Record types, crown jewels, retention |
| Current Encryption | 8 | Algorithms in use, inventory status |
| Compliance Status | 8 | Frameworks, audit history, gaps |
| Vendor Ecosystem | 8 | Third-party access, contract terms |
| Incident Response | 8 | Current procedures, readiness level |

The Intelligence Engine

- **QSL Research Database:** Quantum threat intelligence and healthcare breach analysis
- **NIST Standards Library:** FIPS 203, 204, 205 requirements and migration guidance
- **HHS Compliance Framework:** HIPAA Security Rule NPRM and OCR enforcement trends
- **AI Personalization:** Claude synthesizes research specifically for YOUR context

The Result: Not a generic report with your name swapped in—a genuine analysis where every finding, every recommendation, and every budget figure is derived from YOUR specific organizational context.

WHY THIS IS DIFFERENT

The Problem You Face

| Option | Cost | Time | Problem |
|-------------------|------------------|--------------|--------------------------------|
| Big 4 Consulting | \$50K-\$200K | 3-6 months | Unaffordable for mid-market |
| Generic Reports | \$0-\$500 | Instant | Not personalized or actionable |
| Internal Research | \$0 (staff time) | Weeks-months | Expertise gap, slow |
| Ignore It | \$0 | — | Catastrophic breach liability |

The QSL Solution

Enterprise-quality analysis at mid-market pricing: \$497 instead of \$50,000+

- **Personalized:** Generated from YOUR specific assessment answers
- **Affordable:** A fraction of traditional consulting costs
- **Fast:** 24-48 hour delivery vs. months of engagement

- **Actionable:** Specific recommendations with realistic timelines and budgets
- **Board-Ready:** Professional format suitable for executive presentation

The Technology Behind It

Our Executive Briefing Generator combines three powerful technologies:

| Component | What It Does | Why It Matters |
|---------------------|---------------------------------|---------------------------------|
| NotebookLM Research | Queries curated knowledge base | Grounded in real research |
| Claude AI Synthesis | Personalizes findings for you | Human-quality analysis at scale |
| PDF Generation | Produces formatted deliverables | Board-ready without design work |

The Bottom Line: You get the same quality of analysis that Fortune 500 companies pay six figures for—personalized to YOUR organization, delivered in days not months, at a price that makes sense for mid-market healthcare organizations.

ABOUT QUANTUM SHIELD LABS

Our Mission

Quantum Shield Labs exists to democratize access to quantum security expertise for healthcare organizations. Protecting patient data from emerging threats shouldn't require a Fortune 500 budget—and now it doesn't have to.

Founder: Michael Bennett

- **Education:** BS in Software Development & Security, UMGC (2024)
- **Technical Focus:** Post-quantum cryptography and healthcare cybersecurity
- **Research:** Author, Post-Quantum Security Playbook for Healthcare
- **Approach:** Practical, actionable guidance for real-world implementation

Why Healthcare Focus?

Healthcare organizations face unique quantum security challenges that generic cybersecurity consultants consistently miss:

- **50+ Year Data Sensitivity:** Patient records must remain confidential far longer than typical business data
- **Regulatory Complexity:** HIPAA, HITECH, and state laws create overlapping compliance requirements
- **Vendor Ecosystem:** Healthcare organizations typically have 50+ vendors with PHI access
- **Legacy Infrastructure:** Medical devices often cannot be patched or upgraded

- **Life-Safety Implications:** Security failures can directly impact patient care and safety

Our Knowledge Base

Every Executive Briefing draws on our curated research database:

| Source Category | Examples | Application |
|-------------------|--------------------------------------|------------------------------|
| NIST Standards | FIPS 203, 204, 205; IR 8547 | Technical requirements |
| HHS/OCR Guidance | Security Rule NPRM, Enforcement | Compliance framework |
| Industry Research | IBM Quantum, CSA Working Groups | Threat timeline |
| QSL Original | Healthcare Playbook, Threat Analysis | Healthcare-specific guidance |

PRICING & ENGAGEMENT OPTIONS

Executive Briefing Generator

\$497 — Complete Executive Briefing Package

- ✓ Access to 48-question online assessment
- ✓ 18-page personalized Executive Briefing PDF
- ✓ Quantum risk assessment based on YOUR data
- ✓ NIST standards mapping for YOUR infrastructure
- ✓ HIPAA compliance gap analysis
- ✓ 90-day quick wins + 12-month strategic roadmap
- ✓ Budget recommendations calibrated to your organization
- ✓ Board-ready presentation format
- ✓ 24-48 hour delivery guarantee

Additional Services

| Service | Description | Investment | Timeline |
|----------------------|--------------------------|---------------|-----------|
| Security Playbook | DIY guide with templates | \$197 | Immediate |
| Strategic Assessment | 1-2 day expert audit | \$7,500 | 2-3 weeks |
| Migration Planning | 90-day full engagement | \$25K-\$50K | 90 days |
| Ongoing Advisory | Quarterly reviews | \$2,500/month | Ongoing |

Money-Back Guarantee

Our Promise: If your Executive Briefing doesn't provide actionable insights specific to your organization, we'll refund your investment in full. No questions asked. We're confident in the value we deliver.

GET STARTED TODAY

Ready to Understand Your Quantum Risk?

| Step | Action | Time Required |
|------|---|---------------|
| 1 | Visit quantumshieldlabs.dev/assessment | 1 minute |
| 2 | Complete our 48-question assessment | 15-20 minutes |
| 3 | Submit payment (\$497) | 2 minutes |
| 4 | Receive your personalized briefing | 24-48 hours |

Frequently Asked Questions

- **Is this for small practices too?** Yes—briefings are calibrated to your organization size, from 50 to 10,000+ employees.
- **We already have a security consultant.** Great! This complements existing work with independent, specialized quantum analysis.
- **How technical is the output?** Designed for CISO presentation to non-technical board members—accessible but substantive.
- **Can I see a sample first?** Contact us for a redacted sample briefing from a similar organization type.
